

HUMBOLDT BAY AREA Bike Map

<p>Bike Path/Class I </p> <p>A separate path for bicycles and/or other non-motorized users; commonly a paved surface.</p>	<p>Bike Lane/Class II </p> <p>A restricted right-of-way for bicycles, typically 5 feet wide along the side of the street. A thick white line separates the auto and bike lanes. Motor vehicles may merge into these lanes to make turns.</p>
<p>Family Friendly </p> <p>Generally appropriate for children on bicycles; typically have wider shoulders, lower traffic volumes and speeds, easy topography, and good pavement conditions.</p>	<p>Bike Route/Class III </p> <p>A travel lane shared by bicycles and motor vehicles designated only by signs and commonly by a wide shoulder. This type of facility mainly informs motorists of preferred cycling routes.</p>
<p>Intermediate </p> <p>Appropriate for bicyclists with a range of skill levels. These facilities typically have moderate shoulder widths, traffic volumes, topography, and/or pavement conditions.</p>	<p>Technical </p> <p>Due to narrow or non-existent shoulder, high traffic volumes and speeds, extreme topography, and/or poor pavement conditions, these facilities typically challenge skilled riders.</p>

Bike Compatible Trail **Difficult Intersections**
